## SUMMARY

- I am a Recent **B.Sc. (Information Technology)** graduate from **Parul University with a specialization in Cyber Security**, and currently pursuing a **Master of Computer Application (MCA)** at **Vidhyabharti Trust College of MCA** (affiliated with Gujarat Technological University). I have a strong academic foundation in software development, database management, and web technologies, along with hands-on experience in PHP, MySQL, and related tools. My education and internship experience have equipped me with essential technical skills and a problem-solving mind-set required in the IT industry.
- Though I am currently a fresher, I have developed a strong interest in areas such as **web development**, **cybersecurity**, and **software programming**. I am a quick learner, eager to adapt to new technologies, and passionate about contributing to innovative IT solutions.
- I am now seeking an entry-level opportunity where I can apply my knowledge, grow professionally, and make a positive impact in the field of Information Technology.

## EDUCATION

- S.S.C in GSEB Board from Shri Saraswati School, Bardoli, Gujarat in (2020)  
Graduated with 60%
- H.S.C in GSHEB Board from Shri Saraswati School, Bardoli, Gujarat in (2022)  
Graduated with 50%
- B.Sc. (Information Technology) from Parul University, Vadodara, Gujarat  
(2022-2025)  
Graduated with 6.56 CGPA
- Master of Computer Applications (MCA) from Vidhyabharti Trust College of MCA, Bardoli, Gujarat  
(Affiliated with Gujarat Technological University).  
(2025-Ongoing)

## WORK EXPERIENCE

- Internship at Unistar Softech Pvt Ltd, Bardoli, Gujarat**      **Working Tenure: 11/2024 to 05/2025**  
As a Software Trainer Intern at Unistar Softech Pvt. Ltd., a reputed software development company, I was responsible for delivering technical sessions and assisting in training users on web development fundamentals, primarily focused on PHP and MySQL. I helped students and junior interns understand core PHP concepts, database integration, and basic frontend-backend interactions.  
During the internship, I also developed a PHP-based web project from scratch, which involved:
  - Designing the UI using HTML, CSS, and JavaScript
  - Writing clean and modular backend code in PHP
  - Integrating MySQL for data storage and management
  - Implementing basic authentication and form validation
  - Testing and debugging to ensure reliability and user-friendliness

## SKILLS

### Soft Skills:

- Communication & problem Solving
- Time Management

### Technical Skills:

- Microsoft Office Suite (Word, Excel, PowerPoint)
- Web Development: HTML, CSS, JavaScript, React.js
- Programming Languages: Java, PHP, Python
- Android Development

## ACADEMIC PROJECTS

- Final Year Project Title: Developed a comprehensive **Car Driving School web application** using **PHP, MySQL, HTML, CSS, and JavaScript** to streamline the booking, payment, and scheduling processes for both customers and school administrators. The system enables users to register, book driving sessions, and make payments securely via Razor pay integration. Admins can manage packages, view bookings, assign instructors, and track payments in a centralized dashboard.

This project demonstrates strong back-end logic, front-end usability, database connectivity, and real-world implementation of an online service platform.
